

Mid-Size Gear Drive Walk-Behind Mowers

Perfect for the new landscape contractor and seasoned professional alike, these mowers feature Toro's TURBO FORCE® cutting deck for superior performance and productivity at a great value.

EXCLUSIVE T-BAR STEERING

T-Bar steering increases productivity and is ergonomically designed to reduce activation force. Unique operator presence control disengages blades and returns unit to neutral without stopping the engine.

COMMERCIAL-GRADE ENGINES

High-horsepower commercial engines deliver many hours of trouble-free life, while twin cylinder design provides a smoother-running engine with excellent load response.

DURABILITY

- TURBO FORCE® heavy-duty 7-gauge steel deck construction
- Robust cast iron spindle housings with maintenance-free sealed bearings
- Welded 7-gauge steel bull-nose bumper
- ▶ **Flexible rubber discharge chute allows close trimming without damaging the chute or landscaping structures**

RELIABILITY

- ▶ High-horsepower, commercial-grade twin cylinder engines
- Independent choke and throttle controls provide greater accuracy
- 5-speed gear box allows users to vary top-end speed of machine
- ▶ **Flat-free semi-pneumatic caster tires eliminate time-consuming flats**

PRODUCTIVITY

- ▶ **Choose between traditional Pistol Grip controls, and the Toro-exclusive, fatigue-reducing T-Bar control system**
- Easy-to-change 4-pin height-of-cut adjustment (floating deck models)
- 1/4" thick, heat-treated steel blades resist flexing for a flat, crisp cut

MODEL NUMBER	ENGINE	CUTTING DECK	DECK TYPE	CONTROLS	ACRES/HOUR	
30632	16 hp Kawasaki ¹⁾	32" FIXED DECK	Fixed	Pistol Grips	2.0	
30634		36" TURBO FORCE			2.3	
30638		48" TURBO FORCE			3.0	
30672		32" FIXED DECK		Floating	T-Bar	2.0
30674		36" TURBO FORCE				2.3
30678		48" TURBO FORCE				3.0
30074		36" TURBO FORCE				2.3
30076	40" TURBO FORCE	2.5				
30078	18 hp Kawasaki	48" TURBO FORCE	Floating	T-Bar	3.0	
30079		52" TURBO FORCE			3.3	
30092	15 hp Kawasaki	32" RECYCLER ²⁾	Floating	T-Bar	1.6	

1) For additional product specifications see pages 28 and 29.

2) Maximum acres per hour based on 100% efficiency (MPH x width of cut). Actual productivity dependent upon conditions.

FLAT-FREE CASTER TIRES

Semi-pneumatic caster tires eliminate time-consuming flats so mowers can spend more time in the field and less time in the shop.

RUBBER DISCHARGE CHUTE

Toro's patented flexible rubber discharge chute allows for close trimming without damaging the chute or landscaping structures in its way. The chute's exclusive design provides exceptional dispersion, while protecting operators, bystanders and personal property from inadvertent damage.
